

# Shape and Create Mats, Volume I

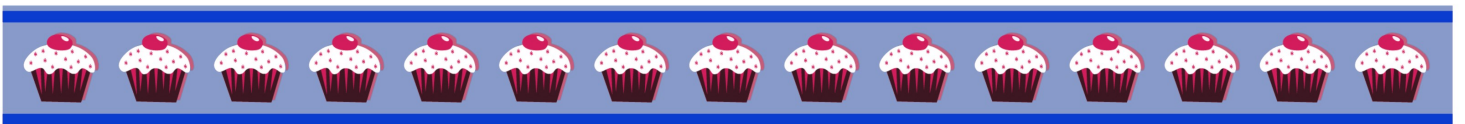

Welcome! These fifteen printable mats strengthen fine motor skills by encouraging your children to add details to the pictures using play dough. Simply print the pages you wish to use for your child and laminate them so that they may be reused again and again. Share the instructions for each picture as you give it to your child and then enjoy watching his or her imagination run wild!

Make pretty patterns on the butterflies' wings, then add some butterflies to the picture.

Decorate the cupcake!

Put freight in the train cars and add steam puffs coming from the engine.
