

If you have twelve cookies and you give two of them away, how many cookies will you have left? Trace the numbers below, including the answer. Then write the answer on the line after the cookies, and write the answer with the problem beneath the cookies. You can do it!

$$12 - 2 = 10$$

$$12 - 2 =$$

$$11 - 2 = 9$$

$$11 - 2 =$$

$$10 - 2 = 8$$

$$10 - 2 =$$

$$9 - 2 = 7$$

$$9 - 2 =$$

$$8 - 2 = 6$$

$$8 - 2 = \underline{\hspace{2cm}}$$

$$8 - 2 =$$

$$7 - 2 = 5$$

$$7 - 2 = \underline{\hspace{2cm}}$$

$$7 - 2 =$$

$$6 - 2 = 4$$

$$6 - 2 = \underline{\hspace{2cm}}$$

$$6 - 2 =$$

$$5 - 2 = 3$$

$$5 - 2 = \underline{\hspace{2cm}}$$

$$5 - 2 =$$

$$4 - 2 = 2$$

$$4 - 2 =$$

$$3 - 2 = 1$$

$$3 - 2 =$$

Math Stories

Now it's time to try some math stories that use what we learned about subtraction. Follow all the directions for each problem below. You can do it!

There were 8 cookies on a plate in the kitchen. Steve ate 2 of them. How many cookies were left on the plate?

$$8 - 2 = 6$$

$$8 - 2 =$$

Sam and his brother went to the bakery and bought 12 cookies to surprise the family for dessert. They decided to eat 2 of them. How many cookies did they have left? Draw the cookies to show the problem.

$$12 - 2 = 10$$

$$12 - 2 =$$

Mom bought 10 cookies for the students to eat after play practice. She gave 2 cookies to her neighbor who was not feeling well. How many cookies did Mom have left? Draw the cookies to show the problem. Write the problem on the lines under the pictures you draw.

$$10 - 2 = 8$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$
