Waterfall.....	52
Bonus: Lunar Landforms	
Crater Basin .....	53
Lunar Mountain.....	54
Rilles .....	55

SAMPLE

# Introduction

Welcome to Landforms Notebooking! These notebooking pages are designed to encourage students to research landforms and learn about their features, where they are found, and many other facts about them. Following the landforms featured are bonus notebooking pages that will allow your student to research three of the landforms found on the lunar surface and write about their findings.

There are many ways to use this pack in your studies:

- These notebooking pages are perfect for deeper research after students have studied the geographical features of an area of the world in history or social studies.
- Parents and teachers can use the pack to help create a list of ideas or areas you wish to explore as you plan your studies.
- Students can use the notebooking pages as a starting point for independent study. Have students take the research questions to the library or use at the computer to search for the answers to the questions. Allow plenty of time for rabbit trails so students can investigate facts and stories they discover as they complete their research for each landform.
- They can also be used as a tool to help students practice and sharpen research and notetaking skills. Have students record where they find the answers to each question as they would if they were doing research for a paper or presentation. You can also use this record of sources to help them dig deeper into the topics that interest them.

However you use the pack in your curriculum, I hope you discover some of the amazing landforms that shape our world!

# Barrier Island

What features define this landform? \_\_\_\_\_

---

---

---

Is there a region of the world where this landform is more common? If so, why? \_\_\_\_\_

---

---

---

Is there a climate where this landform is more common? If so, why? \_\_\_\_\_

---

---

---

How is/was this landform formed? \_\_\_\_\_

---

---

---

Is this landform common or rare? Why? \_\_\_\_\_

---

---

---

Give two or three examples of places you can find this landform. \_\_\_\_\_

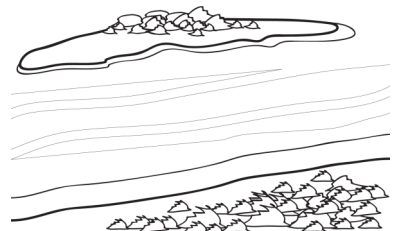

---

---

Name an historic event this type of landform has played a part in. \_\_\_\_\_

---

---

# Bay
