

Amyloplast

Is it found in animal cells, plant cells, or both?

What is its function?

Draw a picture of the part of the cell.

Is it part of a larger unit inside the cell?

What are some interesting facts about this part?

Cytoplasm

Is it found in animal cells, plant cells, or both?

What is its function?

Draw a picture of the part of the cell.

Is it part of a larger unit inside the cell?

What are some interesting facts about this part?

Mitochondrion

Is it found in animal cells, plant cells, or both?

What is its function?

Draw a picture of the
part of the cell.

Is it part of a larger
unit inside the cell?

What are some
interesting facts
about this part?

Ribosome

Is it found in animal cells, plant cells, or both?

What is its function?

Draw a picture of the part of the cell.

Is it part of a larger unit inside the cell?

What are some interesting facts about this part?
