# Introduction

Welcome to Famous Artists Notebooking! These notebooking pages are designed to encourage students to research famous artists and learn about their lives, their works, and many other facts about them. Following the artists featured are bonus questions and notebooking pages that allow your student to research and think critically about questions involving art and artists.

There are many ways to use this pack in your studies:

- These notebooking pages are perfect for deeper research after students have studied the artists.
- Parents and teachers can use the pack to help create a list of ideas or areas you wish to explore as you plan your studies.
- Students can use the notebooking pages as a starting point for independent study. Have students take the research questions to the library or use at the computer to search for the answers to the questions. Allow plenty of time for rabbit trails so students can investigate facts and stories they discover as they complete their research for each artist.
- They can also be used as a tool to help students practice and sharpen research and notetaking skills. Have students record where they find the answers to each question as they would if they were doing research for a paper or presentation. You can also use this record of sources to help them dig deeper into the topics that interest them.

However you use the pack in your curriculum, I hope you discover more about some of the amazing artists of history!
