

Introduction

Welcome to this notebooking journal all about historic kingdoms and empires! To avoid confusion, there are a few things you need to keep in mind as you work through this unit:

1. Sometimes, sources don't agree about what to call a kingdom. Some might call it a kingdom, others a dynasty, others an empire, etc. As much as possible, I have left those words out of the titles.

2. Some of these kingdoms and empires share their name with a modern nation or city. Everything mentioned in this unit is related to historic kingdoms, not modern-day nations or cities.

I hope you have fun learning about some of the kingdoms and empires of history!

Achaemenian

When did it begin?

When did it reach its height?

When did it end?

What geographical areas did it cover at its height?

What were its significant contributions to history?

What are some interesting facts you found?

Assyrian

When did it begin?

When did it reach its height?

When did it end?

What geographical areas did it cover at its height?
