

Fall Count & Color Activity Pack

On the next few pages, you are going to find a LOT of different things that, depending on where you live, can let us know that fall is here! Can you count and color all of them? Do your best, then trace the number of objects on each page. When you get to the end, you'll find some really fun number problems and lots of other activities like mazes, drawing, dot-to-dots, and more!

Have fun!

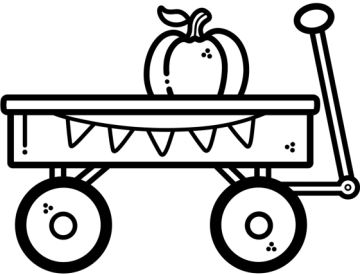

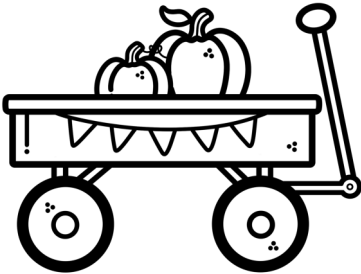

6 Squirrels

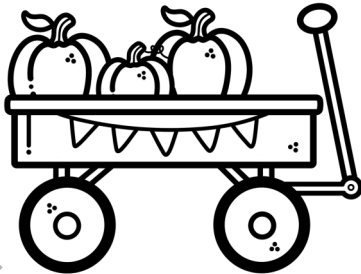

Six Squirrels

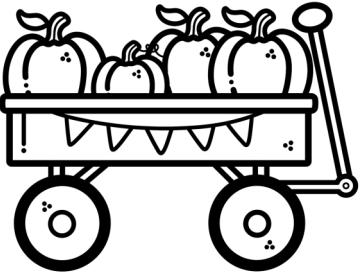

SAMPLE

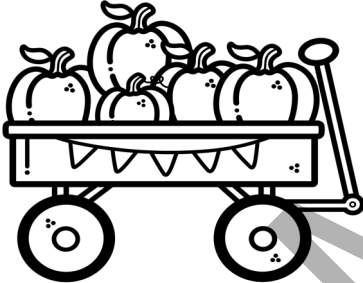

Let's practice counting from 1 to 10. Write the number of pumpkins on each line.

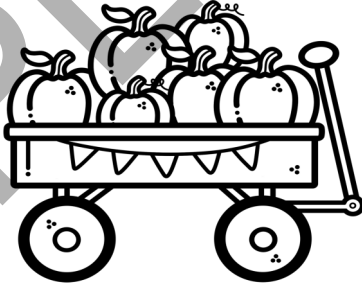

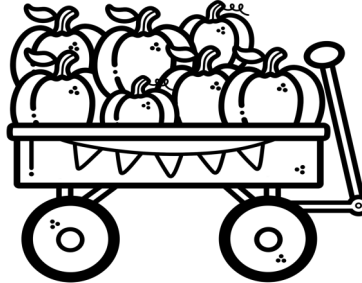

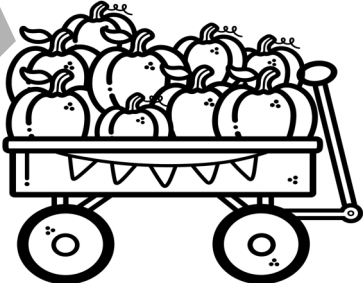

Are you ready for some bonus puzzles? Try these dot-to-dots. They go past ten, so let someone know if you need help!

Find the number one and draw a line to the dot for number two. Now draw a line to the dot for number three. Keep following the numbers, connecting the dots, until you get to last number. Then draw a line connecting that number, back to the dot for number one where you started.
