

Introduction

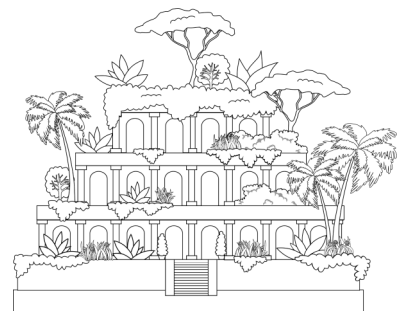

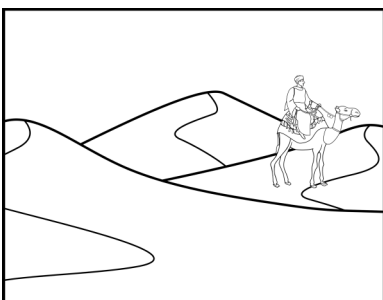

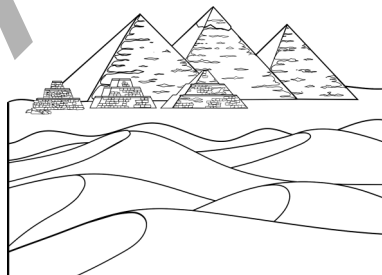

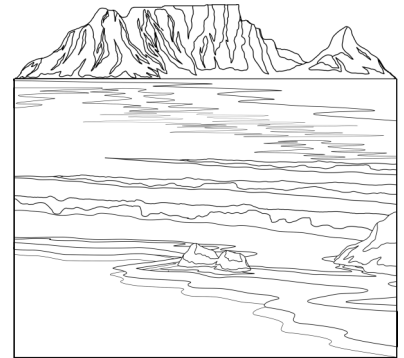

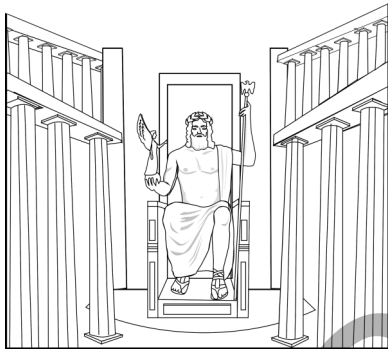

The title "Wonder of the World" has been used many times throughout history to describe sites around the world. In this unit, "Wonders of the World" include those considered the Seven Wonders of the Ancient World as well as numerous others that have been included on various lists of wonders, both man-made and natural.

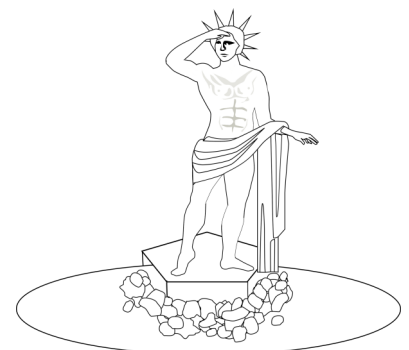

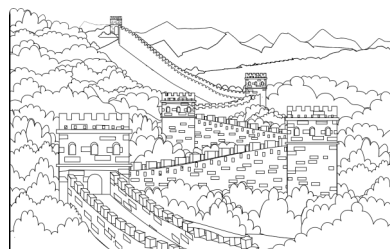

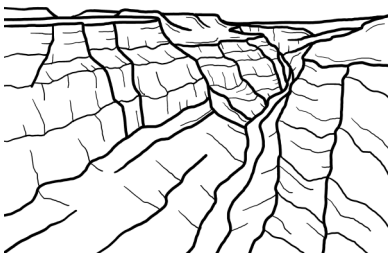

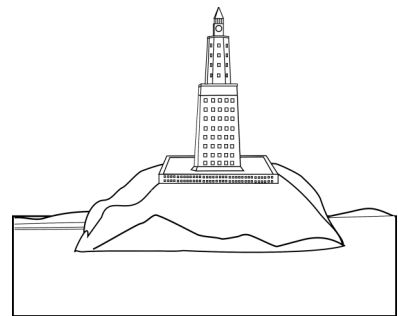

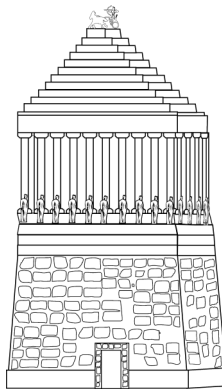

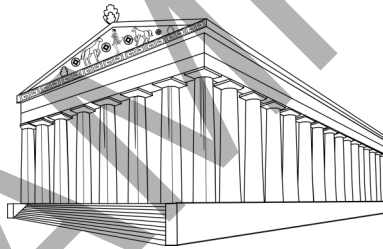

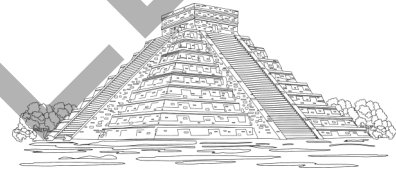

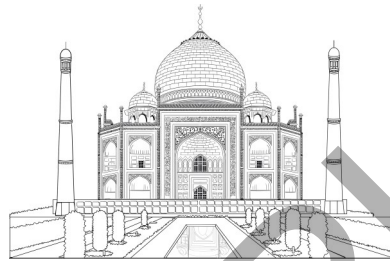

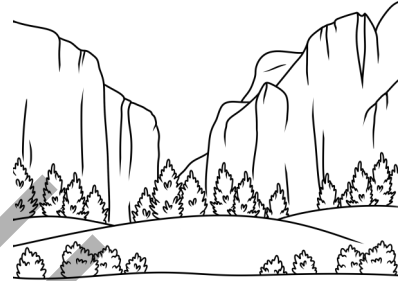

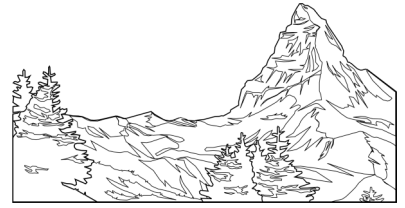

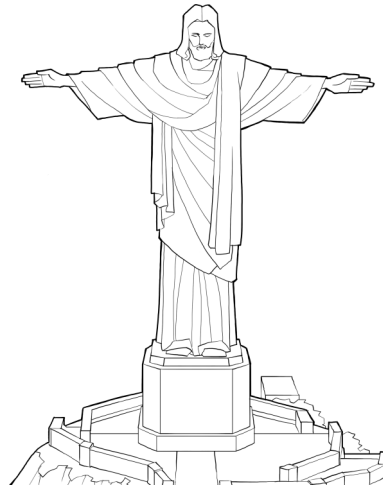

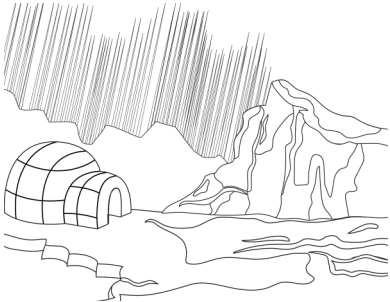

Start by reading the directions on a page. Then look at the pictures on the bottom of that page. The directions tell you how many pieces you need to make a Wonder of the World. Cut out the small pictures and rearrange them until you have a picture of a Wonder of the World. Each page will have one or more extra parts you do not need.

There are two sets of Wonders of the World pages. One has an outline of what your finished wonder will look like. The other set does not have the outline. You can do either set you want, or you can try them both!

Have fun!
